on THT hole
fill?**

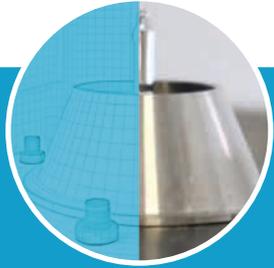

THT

solderability DfM

DIGITAL TWIN TECHNOLOGY

THT

process development

Identify critical solder joints

Faster time to market

Up to 25% shorter cycle times

Optimized soldering equipment

RIGHT FIRST TIME

DfM and CAD-CAM in 5 minutes

CAD

Data Import

CAM

File Export

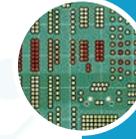

Save hours of solder iterations

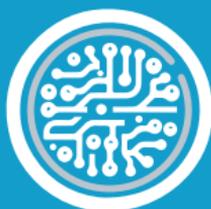

Up to 80% less trial and error

Software-based process optimization

Identify soldering challenges and quality issues

Reduce thermal stress
